Arizona Boy Play Video

Date of Birth: 9/24/2026

## Arizona Litter Temperament Overview:

Arizona and Garrett bring together two incredibly **bubbly, affectionate, outgoing, and personality-forward temperaments**. Arizona is a sweet, cuddly girl who loves being the center of attention and happily soaks up every second of it. Garrett is equally people-oriented with an especially playful, goofy side—he loves being included in absolutely everything and is happiest simply being wherever his people are.

Together, they produce the kind of puppies that are incredibly easy to fall in love with: **sweet, bubbly, playful, affectionate, engaging, and full of personality**. These puppies should genuinely enjoy human connection and being involved in everyday life, with plenty of enthusiasm for attention and interaction.

Expect an especially people-oriented group with puppies who actively seek connection rather than simply waiting for it. Their affectionate nature is paired with playful, happy personalities, giving them a fun and social quality while still allowing them to settle into close interaction and handling.

Energy should generally center around the **mid-level range**, with additional excitement and animation coming forward during interaction. They should have plenty of personality for play, outings, and everyday adventures while remaining manageable companions outside of those exciting moments.

Overall, these puppies should be best suited to **engaging homes** looking for affectionate, interactive companions who can be included in everyday life and genuinely become part of whatever their families are doing.

POTENTIAL SERVICE + THERAPY CANDIDATE

⭐ Prep Student: **8-Week S.T.A.R. Puppy Program**
**Prep School Dates**: Nov 26th 2026 - Jan 21st 2027 (8wk)

• **Energy Level:** Mid — Consistent & Balanced

• **Personality:**
Arizona Blue is a **well-balanced, personable, engaging, playful, bubbly, and wonderfully silly boy** who clearly inherited

the people-loving personality of both Arizona and Garrett. He actively enjoys attention and connection, approaching interaction with plenty of enthusiasm while still maintaining a nicely balanced overall temperament.

Blue is confident without being pushy and has a definite people-focused nature. He genuinely seeks out human interaction and showed great engagement throughout his evaluation, but he can also entertain himself appropriately. That combination gives him a lovely ability to be highly connected with his family without needing constant entertainment from them.

Handling is an especially strong quality for Blue. He was relaxed during his initial handling evaluation and demonstrated **incredible tolerance**, showing how comfortably he can settle into physical interaction even with his naturally bubbly personality.

His energy is textbook mid-level through and through. He has plenty of playfulness, curiosity, and personality when something fun is happening, but his baseline remains nicely manageable rather than consistently high or intense.

Blue showed **great early potential for both Service and Therapy work**. His exceptional handling tolerance, strong human engagement, confidence, people focus, social nature, and balanced energy create a very promising foundation for continued development in either direction as he matures.

Despite being especially people-oriented, Blue remains a wonderfully versatile puppy. His ability to engage deeply with people while still self-entertaining gives him the adaptability to fit into a wide variety of lifestyles.

He should do beautifully in **most any home**, particularly one looking for a social, affectionate, fun little companion who can be included in everyday life. His 8-Week S.T.A.R. Puppy Program will give him an extensive head start with training, socialization, structure, everyday life skills, and continued development of his naturally engaging temperament.

• **Physical Evaluation:**
No health concerns noted.
