Meet the Parents

Barbie x Stitch — Parent Overview

Barbie is a sweet, outgoing, and bubbly girl with a personality far bigger than her tiny frame should reasonably be able to contain. She is incredibly engaging and people-oriented, always more interested in what her people are doing and how she can be involved than whatever plans she may have had of her own. Barbie approaches life with a joyful enthusiasm and a wonderful desire to connect, making her an exceptionally personable and endearing little girl.

Breed: F2B Goldendoodle
Weight: 12lbs

Stitch brings a softer, gentler approach to the pairing. He is sweet, affectionate, and wonderfully calm, with a natural preference for cuddles and quiet moments of connection. While he certainly enjoys interacting with his people, Stitch is happiest when he can simply settle in close and soak up affection. His gentle disposition and loving nature make him an incredibly comforting and easygoing companion.

Breed: F1 Schnoodle
Weight: 12lbs

Together, Barbie and Stitch are expected to produce puppies that beautifully balance their parents' complementary personalities. We anticipate outgoing, sweet, engaging, and affectionate puppies with Barbie's bubbly enthusiasm and Stitch's gentle, cuddly nature. Energy levels should remain around mid-level, naturally rising with excitement and interaction while still allowing for plenty of affectionate moments. This litter should produce wonderful companions for engaging homes looking for a personable, loving puppy that enjoys being included in everyday life.
