Individual Notes:

Pommery green is confident and self-assured. He shows no stress in new situations, around new people, or in circumstances that would typically be considered stressful. He is curious and investigative with new sights and sounds, including those that would typically be considered startling. He has a good memory and problem-solving abilities average for his age and stage of development. He has very good focus above average for his age. His motivations for interaction are very high. He has good motivations for food and toys. He is socially appropriate in his interactions with litter mates, cats, other dogs, and with people. He is pushy in his effort to get and keep your attention. He rarely uses his mouth to initiate or engage in play and has excellent bite inhibition when he does. He is also rarely vocal. The Pommery litter overall has no red flags and show no possessiveness. They are all comfortable and tolerant of handling and restraint. These puppies are very consistent with very few differences between them. Differences are noted only when comparing them side-by-side. Green is very social, engaging, eager, and interactive. He actively works to get and keep your attention. Green is bubbly, happy, curious, and engaging. He would rather be with you than not. He has mid to moderate energy and has a good potential for service or therapy work. These puppies will do best in a home that is going to be interactive with them.

Health notes:

Green has no health notes.
