Individual Notes:

Petals Green overall is confident and self-assured. He shows some stress while in a new situation, then adjust, while showing no stress around new people or circumstances that are considered stressful. He is curious and investigative with new sights and sounds, including those which would be considered startling. He has a good memory, focus, and problem-solving abilities average for his age and stage of development. He also has good motivations for interaction, food, and toys at fairly equal and balanced levels. He is socially appropriate in his interactions with litter mates, with dogs, with cats, and people. He is very gentle. He is rarely vocal. He rarely uses his mouth to initiate or engage in interaction, but when he does, he has excellent bite inhibition. He is comfortable and tolerant of handling and restraint. These puppies are very consistent with very few differences between them. These differences can only be seen when comparing them side by side. He is personable, engaging, playful, and curious. He is also happy, playful, and very affectionate. He is gentle and respectful with handling. He will do best in a home that will allow him to adjust to new things without being overwhelmed.

Health notes:

Green has no health notes.
