Individual Notes:

Gucci Blue is overall is confident and self assured. He shows no stress in new situations, around new people, or in circumstances that are typically considered stressful. He reacts appropriately to new sights and sounds. He is curious and investigative. He has good memory focus and problem-solving abilities average for his age and stage of development. He has very good motivation for interaction and food. He also has good interest in toys. He is socially appropriate in his interactions with littermates, with cats, and with other dogs. He is also socially appropriate in his interactions with people. He does use his mouth to initiate or engage and play, but has excellent bite inhibition. He is rarely vocal, he is comfortable and tolerant of handling and restraint. The litter overall has no red flags and show no possessiveness. These puppies are very consistent with very few differences between them. Differences are only noted when comparing these puppies side-by-side. Blue has mid level energy. This entire litter is playful, curious, eager, and social. They are engaging and very personable. They are affectionate and gentle with handling and interaction. These puppies have potential for therapy work and are well balanced. They are content to explore and play on their own, but prefer to be around people. They should adapt well into most any home environment.

Health notes:

Blue has no health notes.
