Individual Notes:

Farrah Blue Stripe overall is confident and self-assured. He has mid level energy. Although a couple of the puppies in this litter need a little time to adjust into new situations, they show little to no stress in those new situations, around new people or in circumstances that would typically be considered startling. Blue Stripe is curious and investigative with new sights and sounds, including those that are considered startling. He is playful, curious, happy and social. He is content to explore and play on his own while still being personable, engaging and affectionate. He has a good memory, focus and problem-solving abilities average to his age and stage of development. He has good motivations for interaction, food and toys at equal and balanced levels. He is content, comfortable and gentle with handling and restraint. He is socially appropriate in his interactions with his littermates, other dogs, cats and people. He has very good bite inhibition and rarely uses his mouth in play. He is only vocal in socially appropriate situations and during play. He has no red flags in his personality and shows no possessiveness. These puppies are all very consistent and well-balanced. They should adapt well into most any home.

Health notes:

Blue Stripe has no health notes.
