7 Wk:

Cynthia Blue Dot is confident and self-assured. He shows little to no stress in new situations, around new people, or in situations that are typically considered stressful. He is curious and investigative with sights and sounds including those that are startling. This puppy has excellent motivation for interaction, food, and toys. His motivation for interaction is slightly higher. Blue Dot has excellent focus and very good memory and problem-solving abilities for his age. He is socially appropriate in his interactions with littermates, with cats, and with other dogs. He is also socially appropriate in his interactions with people. He rarely uses his mouth to initiate or engage in play, but has excellent bite inhibition when he does. He is also rarely vocal. Blue Dot has mid-level energy, and is naturally on the gentle side. He has good potential for service and therapy work. He actively works to get and keep your attention and he stays focused and engaged. Overall, this litter has no red flags and shows no possessiveness. They are all comfortable and tolerant of handling and restraint. Some of them being a little wiggly due to excitement. These puppies are fairly consistent. These puppies are all curious, playful, happy, and social. They are engaging and personable, and they are bubbly, happy, and affectionate. They will all do best in a home that is going to be interactive with them.

Health notes:

Blue Dot has no health notes.
