#### **Individual Notes:**

Mercedes Blue is confident and self-assured. He reacts appropriately to new sites and sounds including those that are startling. He has good memory focus and problem-solving abilities average to his age and stage of development. He has very good motivation for interaction and food, and good interest in toys. This puppy is socially appropriate in his interactions with littermates, with cats, and with other dogs. He is also socially appropriate and his interactions with people. He rarely uses his mouth to initiate or engage in play, but when he does he has excellent bite inhibition. He is vocal only in socially appropriate situations and it seems easily managed and or redirected. Blue has mid to moderate energy. Overall, this litter has no red flags and show no possessiveness. These puppies are very consistent. They are a bit immature, due to the large litter size on such a small mom, but it does not affect the results of this test. It may affect the date that they could leave and go home, particularly for the puppies that are running a bit smaller. All of these puppies are playful, curious, social, and happy. They are eager, engaged, and affectionate. Blue will adapt well into most any home.

#### **Health notes:**

Blue has no health notes.
