Individual Notes:

Poppy Pink overall is confident and self-assured. She has mid to moderate energy. She is very happy, playful, curious and social. She is content to explore and play on her own while still being personable and engaging. After having a little time to adjust into a new situation, she shows little to no stress in those new situations, around new people or in circumstances that are typically considered stressful. She reacts appropriately to new sights and sounds. If she does get startled, she recovers quickly on her own. She has a good memory, focus and problem-solving abilities average for her age and stage of development. She has good motivations for interaction, food and toys at fairly equal and balanced levels. She is socially appropriate in her interactions with her littermates, other dogs, cats and people. She rarely uses her mouth, but when she does, she has excellent bite inhibition. She is comfortable and tolerant of handling and restraint. She is also only vocal in socially appropriate situations and it is easily managed. She has no red flags in her personality and shows no possessiveness. All of these puppies are very consistent, well balanced and should adapt well into most any home.

Health notes:

Pink has no health notes.
