Individual Notes:

Ripley Orange overall is confident and self-assured. He has mid to moderate energy. He is playful, curious, social and happy. He is also eager and engaging, but still content to play on his own. He is naturally respectful, personable but not pushy and very well balanced. He shows no stress in new situations, around new people or in circumstances that would typically be considered stressful. He is curious and investigative with new sights and sounds, including those that are startling. Overall, he has a good memory, focus and problem-solving abilities average for his age. He also has good motivations for interaction, food and toys at fairly equal and balanced levels. He is very socially appropriate in his interactions with his littermates, other dogs, cats and people. He is very gentle and calm with handling an interaction. He is rarely vocal and rarely uses his mouth, but when he does, he has great bite inhibition. He has no red flags in his personality and shows no possessiveness. These puppies are very consistent with very few differences between them. They are all well balanced and should adapt well into most any home. Any of these puppies would be a very good for a family with smaller children.

Health notes:

Orange has no health notes.
