Individual Notes:

Ripley Pink Dot overall is confident and self-assured. She has mid to moderate energy. She is playful, curious, social and happy. She is also eager and engaging, but still content to play on her own. She is naturally respectful, personable but not pushy and very well balanced. She shows no stress in new situations, around new people or in circumstances that would typically be considered stressful. She is curious and investigative with new sights and sounds, including those that are startling. Overall, she has a good memory, focus and problem-solving abilities average for her age. She also has good motivations for interaction, food and toys at fairly equal and balanced levels. She is very socially appropriate in her interactions with her littermates, other dogs, cats and people. She is very gentle and calm with handling an interaction. She is rarely vocal and rarely uses her mouth, but when she does, she has great bite inhibition. She has no red flags in her personality and shows no possessiveness. These puppies are very consistent with very few differences between them. They are all well balanced and should adapt well into most any home. Any of these puppies would be a very good for a family with smaller children.

Health notes:

Pink Dot has no health notes.
