Individual Notes:

Vanessa Green overall is confident and self-assured. He has mid level energy. He is bubbly, happy, social and curious. He is also personable and affectionate. He is content to explore and play on his own while still being personable and engaging. After having a little time to adjust in a new situation, he is curious and investigative with new sights and sounds, including those that are startling. He shows little to no stress in new situations, around new people or in circumstances that would typically be considered stressful. He is comfortable, tolerant, naturally gentle and very calm with handling and interaction. He has a very good memory, focus and problem-solving abilities for his age and stage of development. He is also already indicating the ability for potty training. He has good motivations for interaction, food and toys at fairly equal and balanced levels. He is socially appropriate in his interactions with his littermates, other dogs, cats and people. He is rarely vocal and rarely uses his mouth to initiate or engage in play, but when he does, he has excellent bite inhibition. He has no red flags in his personality and shows no possessiveness. All of these puppies are very consistent with very few differences between them. These puppies overall are very well balanced and should adapt well into most any home.

Health notes:

Green has no health notes.
