Individual Notes:

Annabelle White is very confident and self-assured. She shows no stress in new situations, around new people, or in circumstances that are typically considered stressful. She is curious and investigative with new sights and sounds, including those that are startling. This puppy has good memory focus and problem-solving abilities average for her age and stage of development. She also has good motivations, at fairly equal and balanced levels, for interaction, food, and toys. White is socially appropriate in her interactions with littermates, with cats, and with other dogs. She is also socially appropriate in her interactions with people. She rarely uses her mouth to initiate in play, and has very good bite inhibition when she does. She is vocal only in socially appropriate situations, and is easily managed and redirected. This puppy is comfortable and tolerant of handling and restraint, although, can be a little wiggly due to excitement. She has moderate level energy.

Overall, this litter has no red flags and shows no possessiveness. They are playful, happy, personable, and affectionate. Most of them are very well balanced being content to explore and play on their own, but still personable and engaging. They are curious, eager, and playful; but not demanding or too busy. These puppies will adapt well into most any home.

Health notes:

White has no health notes.
