Individual Notes:

Madeira Pink is confident and self-assured with little time to adjust into a new situation. This puppy is curious and investigated with new sights and sounds including those that would typically be considered startling. She shows little to no stress in new situations, around new people, or in circumstances that typically are considered stressful. She has good memory focus and problem-solving abilities average for her age and stage of development. She has very good motivations for interaction, and good motivation for food and toys. She is socially appropriate in her interactions with littermates, with cats, and with other dogs. She is also socially appropriate in her interactions with people. She is comfortable and tolerant of handling and restraint, and calms down very well for handling. Pink mid-level energy.

Overall, this litter has no red flags and shows no possessiveness. They are fairly consistent when comparing them side-by-side with very few differences. These puppies are all very personable and engaging. They are excited and eager for interaction, and they all have potential for therapy work. They are curious, social, happy, and well-balanced. These puppies should adapt well into most any home.

Health notes:

Pink has no health notes.
