## **Individual Notes:**

Mulan blue is very confident and self-assured. He shows no stress in new situations, around new people, or in circumstances that would typically be considered stressful. He is curious and investigative with new sites and sounds including those that would be considered startling. He has outstanding focus and problem-solving abilities for his age. He also has very good memory for his age. He has excellent motivations for interaction and good motivations for food and toys. He is socially appropriate in his interactions with litter mates, cats, and other dogs. He is also socially appropriate in his interactions with people. He can be a little wiggly due to excitement when being handled but overall is gentle. He is rarely vocal. He has excellent bite inhibition, although he does use his mouth to initiate or engage in play. Blue has mid to moderate energy. The litter overall have no red flags and show no possessiveness. They are all comfortable and tolerant of handling and restraint, most actively seeking out this type of interaction. These puppies are fairly consistent. Any puppy in this litter has potential for therapy work. They are content to explore and play on their own, but very much prefer to be with and around people. The puppies are eager and excited. They can be a little wiggly due to excitement for interaction. They actively work to get and keep your attention. These puppies are curious, social, and happy. They would do best in a home that is going to be interactive with them.
