Individual Notes:

Petals Blue is confident and self-assured after given a little time to adjust into a new situation. He shows some stress in new situations, but no stress around new people, or in circumstances that would be considered stressful. He adapts very quickly, and in well within the range for his age and maturity level. This puppy is curious and investigative with new sights and sounds, including those that are startling. He has very good memory focus and problem-solving abilities above average for his age and stage of development. Blue has very good motivations for interaction and for toys. He also has a

good motivation for food. He is socially appropriate in his interactions with littermates, with cats, and with other dogs. He is also socially appropriate in his interactions with people. Although, at times he can be a little pushy in his efforts to get or keep your attention, he is still very gentle with his interactions. He does use his mouth to engage in play, but has excellent bite inhibition. Blue has mid to moderate level energy and he is rarely vocal. Overall, this litter shows no red flags or possessiveness. These puppies are fairly consistent. They are extremely engaging, personable, and affectionate. They are gentle with their interactions, but actively work to get and keep your attention. This litter has good potential for therapy work. These puppies are very social, happy, bubbly, and eager. All of these puppies will do best in a home that will be interactive with them.

Health notes:

Blue has no health notes.
