Individual Notes:

Belle blue dot is very confident and self-assured. He shows no stress and no fear in any situation's, including those that should be startling. He adjusts almost immediately to new things, new people, and in new environments. He also is curious and investigative with new sites and sounds. He shows no fear even in situations where the noise could be considered startling. He has good memory and problem-solving abilities. His focus is average for his age. He has very good motivations for interaction, food, and toys. He is socially appropriate in his interactions with litter mates, cats and with other dogs. He is also socially appropriate in his interactions with people. He rarely uses his mouth to initiate or engage in play and has excellent bite inhibition if he does. He is rarely vocal. He is quite wiggly for handling an interaction due to his excitement for this type of interaction. The litter overall have no red flags and shows no possessiveness. They are fairly consistent with very few differences between them. These differences will become more noted as they have different learning experiences while they grow and mature. The boys in this litter have moderate energy. They are all very bubbly, eager, playful and social. They are curious and are content to explore and play on their own while still being personable and engaging. They are balanced and both comfortable being on their own, being interactive, and engaging. These puppies are all eager social personable and affectionate. They are well balanced but will do best in a home that is going to meet their needs for energy and interaction.

Health notes:

Blue Dot has no health notes.
