Individual Notes:

Jalynn Red is confident and self-assured. She shows little to no stress a new situations, around new people, or in circumstances that are typically considered stressful. This puppy is curious and investigative with new sights and sounds, including those that are typically considered startling. She has good memory, focus, and problem-solving abilities average for her age and stage of development. She has excellent motivations for interaction, food, and toys at fairly equal and balance levels. Red is socially appropriate in her interactions with littermates, with cats, and with other dogs. She is also socially appropriate in her interactions with people. She has mid to moderate energy.

Overall, the Jalynn litter has no red flags and shows no possessiveness. They are all comfortable and tolerant of handling and restraint, most of them actively seek out this type of interaction and are gentle. These puppies are all playful curious, social, and happy. They are eager, engaging, personable, and affectionate. There are very few differences between them, which are only noted when comparing them side-by-side. These differences will become more pronounced with learning experiences, and socialization. This litter is content explore and play on their own, while still being personable and engaging. They are well balanced, and have potential for therapy work. They should all do well in most any home.

Health notes:

Red has an underbite and a small umbilical hernia.
