Individual Notes:

Willow Blue is confident and self-assured. Although, he may need a little time to adjust into a new situation. He shows little to no stress in new situations, and no stress around new people, or in circumstances that would typically be considered stressful. He is curious and investigative of new sights and sounds, including those that would typically be considered startling. This puppy has very good memory, focus, and problem-solving abilities above average for his age and stage of development. He also has excellent motivations for interaction, food, and toys. Blue is socially appropriate in his interactions with littermates, with cats, and with other dogs. He is also socially appropriate in his interactions with people. He rarely uses his mouth to initiate or engage in play, and has excellent bite inhibition if he does. He is also rarely vocal. This puppy has mid-level energy.

Overall, the Willow litter has no red flags and shows no possessiveness. They are all comfortable and tolerant of handling and restraint. These puppies are going to do best in a home that will allow them to adjust to new situations without being overwhelmed. They are very sweet and engaged, and they actively work to get and keep your attention. These puppies will do best in the home that is going to be interactive and engaging with them. The entire litter is content to explore and play on their own, while still being personable, affectionate, eager, and engaging. All of the puppies in this litter are curious, playful, social, and happy. These puppies are very well balanced, and should adopt well into most any home.

Health notes:
