#### **Individual Notes:**

Harriet Green is confident and self-assured. He shows no stress in new situations, around new people, or in circumstances that are considered stressful. He reacts appropriately to new sights and sounds, including those that are typically startling. He is curious and investigative. This puppy has good memory, focus, and problem-solving abilities above average for his age and stage of development. He has excellent motivations for interaction and toys, and good motivation for food. Green is socially appropriate in his interactions with littermates, with cats, and with other dogs. He is also socially appropriate in his interactions with people. He rarely uses his mouth to initiate or engage in play, but has excellent bite inhibition when he does. He is rarely vocal. Green is content to explore and play on his own, but prefers to be with and around people. He will do best in a home that is going to be interactive with him.

Overall, the Emersyn litter has no red flags and shows no possessiveness. They are all comfortable and tolerant of handling and restraint. These puppies have mid to moderate energy. They are fairly consistent, difference is noted when comparing them side-by-side. Differences will become more pronounced with different social and learning experiences. All of these puppies are personable, affectionate, eager, and engaging. They are social, happy, curious, and bubbly. All of these puppies are well balanced, and should adapt well into most any home.

#### **Health notes:**

Green has no health notes.
