Individual Notes:

Kensington Pink is very confident and self-assured. She shows no stress in new situations, around new people, or in circumstances that would typically be considered stressful. This puppy is curious and investigative with new sights and sounds, including those that can be startling. She has good memory focus and problem-solving abilities average to her age and stage of development. Pink has excellent motivations for interaction and food, and good motivations for toys. She is socially appropriate in her interactions with littermates, with cats, and with other dogs. She is also socially appropriate in her interactions with people. She does use her mouth quite a lot to initiate or engage in play, but has very good bite inhibition. This puppy is rarely vocal. She is content to explore and play on her own. Overall, this litter has no red flags and shows no possessiveness. These puppies are very consistent with very few differences between them. They have moderate energy. They all prefer to be with and around people, but are still content to explore and play on their own. These puppies can be pushy in their effort to get and keep your attention, but are easily managed and redirected. These puppies are very affectionate, engaging, and interactive. They are confident, curious, social, and happy. These puppies are well balanced and should adapt well in most any home that will be interactive and engaging with them.

Health notes:

Pink has no health notes.
