Individual Notes:

The Winter litter is overall is confident and self-assured, only a couple of the puppies from this litter need a little time to adjust into a new situation. Pink Dot is a little more timid than some of the other puppies in this litter, she does however adjust well on her own. Once she adjusts she show little to no stress in new situations, around people, or in circumstances that are typically considered stressful. Pink Dot is curious and investigative with sights, and sounds, including those that are considered startling. She has good memory, focus, and problem-solving abilities average for her age and stage of development. Pink Dot also has good motivations for food and toys, and good interest and interaction with people. Pink Dot is socially appropriate with his interactions with one another with cats and with dogs. She has Mid to Moderate level energy. She is socially appropriate in his interactions with people, and she rarely uses his mouth to initiate or engage in play, when she does he has excellent bite inhibition. Pink Dot is playful curious, social and happy. She is also rarely vocal, and she is comfortable and tolerant of handling and restraint. The Winter puppies are fairly independent and very content to explore and play on their own. They are still personable and affectionate, and they are gentle with handling, and interaction. Any of these puppies would be a good fit and a home that needs a puppy to be able to stay alone for periods of time. Overall the Winter puppies have no red flags and show no possessiveness, they are well balanced and will adapt well in most any home.

Health notes:

Pink Dot has no health notes
