Individual Notes:

Macy blue is confident and self-assured. He shows a little to no stress in new situations, around new people, or in circumstances that are typically considered stressful. He also shows no stress with new sites and sounds, including those that should be considered stressful. He is curious and investigative. He has a good memory, focus, and problem-solving abilities average to his age and stage of development. He has excellent motivation for interaction and good motivation for food and toys. He is socially appropriate in his interactions with litter mates, cats and with other dogs. He is also socially appropriate in his interactions with people. He is rarely vocal and has very good bite inhibition but rarely uses his mouth to initiate or engage in play. He has mid to moderate energy. The litter overall are very consistent with very few differences between them. These puppies are very sweet and engaging. They are personable and affectionate. They are playful, curious, social and happy. These puppies are content to explore and play on their own, but very much prefer to be with and around people. These puppies are well-balanced and would you best in a home that is going to be interactive with them.
