Individual Notes:

Willamina blue is confident and self-assured. He shows little to no stress in new situations, around new people, or in circumstances typically considered stressful. He is curious and investigative with new sites and sounds, including those that should be considered startling. He has a good memory, focus, and problem-solving abilities average to his age and stage of development. He also has good motivations for interaction, food, and toys at fairly equal and balanced levels. He is socially appropriate in his interactions with litter mates, cats and with other dogs. He is also socially appropriate in his interactions with people. He is gentle. He rarely uses his mouth to initiate or engage in play and has excellent bite inhibition if he does. He also is rarely vocal. The litter overall have no red flags and show no possessiveness. These puppies are very comfortable, gentle and tolerant of handling and restraint. There are very few differences between these puppies when comparing them side-by-side. Differences will become more pronounced as they mature and have different learning and socialization experiences. All of these puppies have mid-level energy. They are fairly easy going intolerance. They are playful, curious, social and happy. They are content explore and play on their own while still being personable and affectionate. They are gentle with interactions. These puppies are very well balanced and should adapt well into most any home.

Health notes:

Blue has a level bite.
