Individual Notes:

Clementine pink is confident and self-assured. She shows little to no stress in new situations, around new people, or in circumstances that are typically considered stressful. She reacts appropriately to new sites and sounds, including those that are startling. She is curious and investigative. She has a good memory, focus, and problem-solving abilities above average for her age and stage of development. She has excellent motivation for interaction, food and toys. She is socially appropriate in her interactions with litter mates, cats, and with other dogs. She is also socially appropriate in her interactions with people. She is naturally gentle and respectful. She is very sweet. She has excellent bite inhibition if she uses her mouth to initiate or engage in play, which is rare. She is also rarely vocal. The litter overall have no red flags and show no possessiveness. They are comfortable and tolerant of handling and restraint. These puppies actively seek out this type of interaction. These puppies all have mid-level energy. They are very consistent with very few differences between them. Individual personality traits will become more defined and pronounced as they have different learning and socialization experiences. These puppies are all curious, playful, happy and social. They are content to explore and play on their own, but prefer to be with and around people. They are very personable and affectionate. They are eager and engaging. Pink is a good therapy candidate. These puppies are all well balanced and will do best in a home that is going to be interactive with them.

Health notes:

Pink has no health notes.
