#### Individual Notes:

The Hayden litter overall is confident and self-assured. Although they need a little time to adjust into new situations, they show little to no stress in new situations around new people and in circumstances that are typically considered stressful. These puppies are curious and investigate new sites and sounds, including those that are considered startling. Red does startle, but she recovers quickly, and on her own. These puppies have good memory, focus, and problem-solving abilities average for their age and stage of development. They also have very good motivations for interaction, food, and toys at fairly equal and balanced levels. These puppies are socially appropriate in their interactions with one another with cats and with dogs, they are also socially appropriate in their interactions with people. Red rarely uses her mouth to initiate or engage in play, when she does she has excellent bite inhibition. Red is rarely vocal.. These puppies have no red flags and show no possessiveness. They are all comfortable and tolerant of handling and restraint. Red has mid-level energy and is a little unsure to start. She will adjust on her own if allowed and she is very personable and gentle. Red is curious and playful. The Hayden puppies are social, bubbly, happy and playful. They are very personable and engaging. They are eager and inquisitive. These puppies are well balanced, but we do best in a home that is going to be interactive with them. Red will do best in a home that will allow her to adjust to new things without being overwhelmed.

#### Health notes:

Red has no health notes.
