Individual Notes:

Liberty blue has mid-level energy to moderate level energy. He is confident and self-assured. He has a little to no stress in new situations, around new people, or in circumstances that are typically considered stressful. He is curious and investigative with new sites and sounds, including those should be considered startling. He has very good focus for his age and stage of development and good memory and problem-solving abilities. He has excellent motivation for interaction and food. He has good interest in toys. He is socially appropriate in his interactions with litter mates, cats and with other dogs. He is also socially appropriate in his interactions with people. He rarely uses his mouth to initiate or engage in play, and has excellent bite inhibition if he does. He is vocal in socially appropriate situations, but it is easily managed and/or redirected. He is comfortable and tolerant of handling and restraint. The litter overall have no red flags and show no possessiveness. These puppies are very consistent with very few differences between them. Individual personality traits will become more pronounced as they have different learning and socialization experiences. These puppies are very personable and engaging. They are gentle and happy. They are affectionate. They are content to explore and play on their own. They are curious, social, and well balanced. These puppies should adapt well into most any home.

Health notes:

Blue has undescended testicals.
