Individual Notes:

Mercedes blue is confident and self-assured after a little time to adjust into a new situation. He shows little to no stress in new situations, around new people, or in circumstances that are typically considered stressful. He is curious and investigative with new sites and sounds, including those that should be considered startling. He has excellent memory, focus, and problem-solving abilities above average for his age and stage of development. He also has very good motivations for interaction and good motivation for food and toys. He is socially appropriate in his interactions with Litter mates, cats and with other dogs. He is also socially appropriate in his interactions with people. He has no red flags and shows no possessiveness. He is comfortable and tolerant of handling and restraint. Blue actively works to get and keep your attention, but is not pushy. He does use his mouth to initiate or engage in play, but has excellent bite inhibition. He is rarely vocal. Blue has mid to moderate energy. He has very good potential for service work. These puppies are all content to explore and play on their own, but prefer to be with an around people. They are very personable and affectionate, eager and engaging. They are happy, social, bubbly, and curious. Blue will do best in a home that is going to be interactive and engaging with him.

Health notes:

Blue has no health notes.

Red Dot needs a little more time to adjust than the rest of the litter, but still adjust very well and on her own.

Red Dot has mid-level energy.

Red Dot can be a little timid to start, but will adjust very well on her own.

Pink and Blue actively works to get and keep your attention, but is not pushy.

pink has moderate energy

Blue and Pink Dot have very good potential for service work.

The rest of the litter has good potential for therapy work.

These puppies are well balanced and should adapt well into most any home but will do best in a home that is going to be interactive with them.
