**Individual Notes:**

Poppy blue is confident and self assured. He shows no stress in new situations, around new people, or in circumstances that are typically considered stressful. He reacts appropriately to new sights and sounds. He is curious and investigative. He has a very good memory, focus, and problem solving abilities above average for his age and stage of development. He has excellent motivations for interaction and food, and good motivation for toys. He is socially appropriate in his interactions with litter mates, cats, and with other dogs. He is also socially appropriate in his interactions with people. He uses his mouth to initiate or engage in play, but has excellent bite inhibition when he does. He is rarely vocal. The litter overall have no red flags and show no possessiveness. These puppies are fairly consistent with very few differences between them. Individual differences will become more pronounced as they have different socialization and learning experiences. These puppies overall have mid to moderate energy. They are very personable and affectionate. They are gentle with handling and interaction. They are content to explore and play on their own, but prefer to be with an around people. These puppies are curious, social, happy, and playful. These puppies are all well balanced and should adapt well into most any home.

## **Health notes:**

Blue has no health notes.
