**7 Wk:**

**Individual Notes:**

Raylee red is confident and self-assured after a little time to adjust into a new situation. She shows little to no stress around new people, in new situations, or in circumstances that would typically be considered stressful. She has a good memory, focus and problem-solving abilities average to her age and stage of development. She also has good motivations for interaction, food and toys at fairly equal and balanced levels. She is curious and investigative with new sites and sounds including those that should be considered startling. She is socially appropriate in her interactions with litter mates, cats and with other dogs. She is also socially appropriate in her interactions with people. She rarely uses her mouth to initiate or engage in play and she has excellent bite inhibition. The litter overall have no red flags and show no possessiveness. They are all comfortable and tolerant of handling and restraint. These puppies are very consistent with everything differences between them. Individual notes and differences are only noticed when comparing them side-by-side. These puppies overall have mid-level energy. They are very well balanced. They are content to explore and play on their own without being too independent. They are personable and engaging without being pushy and overbearing. These puppies are playful, curious, social and happy. These puppies are very well balanced, and should adapt well into most any home.

## **Health notes:**

Red has an umbilical hernia.
