Individual Notes:

Jordynn Red is confident and self-assured, although she shows little to no stress in new situations, around new people, or in circumstances that are typically considered stressful. She is curious and investigative with new sites and sounds, including those that are startling. She has good memory, focus, and problem-solving abilities average to her age and stage of development. She also has excellent motivation for interaction and good motivation for food and toys. Red is socially appropriate in her interactions with her littermates, cats and with other dogs. She is also socially appropriate in her interactions with people; she does use her mouth to initiate, engage and play, but has excellent bite inhibition. She is rarely vocal. She has mid-level energy. She is content to explore and play on her own without being overly independent, but very personable and engaging. Red is very well balanced and should adapt well to, most any home.

Overall this litter has no red flags and show no possessiveness. They are all comfortable and tolerant of handling and restraint. These puppies are very playful, curious, social and happy. They are bubbly, personable and affectionate.

Health notes:

Red does not have all her teeth in.
