Individual Notes:

Martha Blue is confident and self-assured. He shows little to no stress in new situations around new people, or in circumstances typically considered stressful. He reacts appropriately to new sights and sounds. He is curious and investigate, this includes the sights and sounds, that should typically be considered startling. Blue has very good memory, focus, and problem-solving abilities at above average levels for his age and stage of development. He has excellent motivation for interaction and food. He has interest in toys. Blue is socially appropriate in his interactions with littermates, cats, and with other dogs. He is also socially appropriate in their interactions with people. He rarely vocal and rarely use his mouth to initiate or engage and play. When he does, he has excellent bite inhibition. He tends to be very gentle overall. He is comfortable and tolerant of handling and restraint. He has mid-level energy. Overall, the Martha litter has no red flags, and shows no possessiveness. They are very social, curious, playful and happy. They are content to explore and play on their own but most of them prefer to be with and around people. These puppies are very personable and engaging. They are gentle and affectionate. These puppies are very well balanced and should adapt well into most any home. They are fairly consistent with few differences between them.

Health notes:

Blue has no health notes.
