Individual Notes:

The Hayden litter overall is confident and self-assured. Although they need a little time to adjust into new situations, they show little to no stress in new situations around new people and in circumstances that are typically considered stressful. These puppies are curious and investigate with new sites and sounds, including those that are considered startling. These puppies have good memory, focus, and problem-solving abilities average for their age and stage of development. They also have very good motivations for interaction, food, and toys at fairly equal and balanced levels. These puppies are socially appropriate in their interactions with one another with cats and with dogs, they are also socially appropriate in their interactions with people. Pink does use her mouth quite a lot to initiate or engage in play, but she has good bite inhibition. Pink is vocal in socially appropriate situations, but it seems easily managed and or redirected. These puppies have no red flags and show no possessiveness. They are all comfortable and tolerant of handling and restraint, although Pink can be a little wiggly with this type of interaction. Pink has Mid to Moderate energy. The Hayden puppies are social, bubbly, happy and playful. They are very personable and engaging. They are eager and inquisitive. These puppies are well balanced, but we do best in a home that is going to be interactive with them

Health notes:

Pink has no health notes.
