Individual Notes:

Red Dot is a little timid to start, but adjusts very well on her own. She is very gentle with her interactions and would prefer to be with people than being alone. Red Dot has very good memory, focus, and problem-solving abilities above average her age and stage of development. She has excellent motivations for interaction. She also has good motivation for food and toys. The Jersey puppies are socially appropriate in their interactions with one another, with cats, and with other dogs. They are socially appropriate in their interactions with people. A couple of the puppies wince in their effort to get or keep your attention, but otherwise are rarely vocal. Red Dot does use her mouth to get or keep your attention or to initiate play, but she has excellent bite inhibition. Red Dot has no red flags and show no possessiveness. She is comfortable and tolerant of handling and restraint. She actively is seeking interaction. These puppies are very personable and affectionate they have very good potential for therapy work If worked with on confidence building.

Health notes:

Red Dot has no health notes.
