Individual Notes:

Lucinda White is confident and self-assured. She shows no stress in new situations around new people, or in circumstances that would typically be considered stressful. She reacts appropriately to new sites and sounds, including those that are considered startling. White has excellent motivation for interaction and good motivation for food and toys. White is socially appropriate in her interactions with cats, other dogs and people. White has good memory, focus and problem-solving abilities average to her age and stage of development. White rarely uses her mouth, if she does use her mouth, she is very gentle and has excellent bite inhibition. White is rarely vocal, playful, very silly, social and curious. White is content to explore and play on her own, but prefers to be with and around people. She is not overly needy or pushy for attention. White tends to be very gentle with handling and interaction. She is very personable and affectionate. White has mid to moderate level energy.

Overall this little has no red flags and show no possessiveness. They are all comfortable and tolerant of handling and restraint. These puppies are fairly consistent with very few differences between them. These differences will become more pronounced as the puppies have different learning and socialization experiences. These puppies are very well balanced and will do best in most any home.

Health notes:

Lucinda White has no health notes.
