Individual Notes:

Melanie Red is confident and self-assured. She shows little to no stress in new situations, around new people, or in circumstances typically considered stressful. This puppy reacts appropriately to new sights and sounds, and is curious and investigative. She has excellent motivation for interaction, and good motivation for toys and food. Red has a good memory, focus, and problem-solving abilities average for her age and stage of development. This puppy is socially appropriate in her interactions with littermates, with cats, and with other dogs. She is also socially appropriate in her interactions with people. She does use her mouth to initiate or engage and play, but has very good bite inhibition. Red is rarely vocal, and has moderate level energy.

Overall, the Melanie litter has no red flags and shows no possessiveness. They are all comfortable and tolerant of handling and restraint. These puppies are very consistent with very few differences between them. Differences will become more pronounced as these puppies get older and have different learning and socialization experiences. They are bubbly, happy, silly, and very playful. They are personable and affectionate. They are content to explore and play on their own, while still being eager and engaging. They are not overly independent, but also not overly needy. They are well balanced, and should adopt well into most any home.

Health notes:

Red has no health notes.
