### **7 Wk:**

#### **Individual Notes:**

Tesla Blue Dot is confident and self-assured. He shows no stress in new situations, around new people, or in circumstances that are typically considered stressful. He is curious and investigative of new sights and sounds, including those that would be considered startling. This puppy has average memory, excellent focus and problem-solving abilities for his age and stage of development. He has excellent motivation for interaction, food, and toys. Blue Dot is socially appropriate in his interactions with littermates, with cats, and with other dogs. He is also socially appropriate in his interactions with people, although he can be a little pushy in his efforts to get or keep your attention. Blue does use his mouth to initiate in play, but has excellent bite inhibition. Blue Dot is rarely vocal. He has a mid to moderate level energy. Overall, the Tesla litter has no red flags and shows no possessiveness. All of these puppies are comfortable and tolerant of handling and restraint. These puppies overall have consistent traits that one compared side-by-side show some differences that will become more pronounced with different learning and socialization experiences. These puppies are very social, happy, bubbly, and playful. They are eager and engaging.

Blue Dot will do well in a home environment that is going to be interactive with him.

#### **Health notes:**

Blue Dot has an Umbilical Hernia.
