### **Individual Notes:**

Virginia Blue is confident and self-assured, he is curious and investigative of new sites and sounds, including those that should be considered startling. Blue has good memory and problem-solving abilities for his age and his focus is average for his age. Blue has very good motivations for interaction, food and good interest in toys. Blue is socially appropriate in his interactions with his littermates, cats, dogs, and people. He does use his mouth to initiate or engage in play, but has very good bite inhibition. He can be vocal in socially appropriate situations, like during play. He is social, playful, and happy. Blue has mid to moderate level energy. Blue should adapt well into most any home.

Overall these puppies are comfortable and tolerant of handling and restraint. They have no red flags and show no possessiveness. These puppies are fairly consistent overall with very few differences between them, differences are noted we're comparing these puppies side-by-side. The entire litter is social, playful happy. They are personable and affectionate. They are also content to explore on their own and play on their own, without being overly independent.

**Health notes:**

Blue has no health notes.
