Individual Notes:

Emersyn Pink is confident and self-assured. She shows no stress in new situations, around new people, or in circumstances that are typically considered stressful. Pink is curious and investigative of new sights and sounds, including sights and sounds that could be considered startling. She also has excellent motivations for interaction, food, and toys. Pink is socially appropriate in her interactions with littermates, cats, other dogs and people. Pink is rarely vocal. She does use her mouth quite a lot to get or keep your attention but has excellent bite inhibition. Pink is comfortable and tolerant of handling and restraint. Pink is content to explore and play on her own without being overly independent. She should adapt well in most any home.

Overall, the Emersyn litter has no red flags and shows no possessiveness. They are fairly consistent, with very few differences between them. They all have mid to moderate energy. All of these puppies are curious, playful, social, and happy. They are bubbly, personable and eager. This litter has very good memory, focus, and problem-solving abilities above average for their age and stage of development, especially Green Dot & Orange Dot.

Health notes:

Pink has no health notes.
