Individual Notes:

Tortilla Orange is confident and self-assured. He is curious and investigative to new sights and sounds, including those that should be considered startling. He has a good memory and focus and problem-solving abilities average to his age and stage of development. Tortilla Orange also has good motivations for interaction, food, and toys. He is socially appropriate in his interactions with litter mates, cats, other dogs, and people. He rarely uses his mouth to initiate and engage in play, but has excellent bite inhibition if he does. Orange has mid to moderate energy. Orange shows no red flags or possessiveness. He is comfortable and tolerant with handling and restraint.

The Tortilla litter overall are very confident and self-assured. They are social, curious, playful and happy. These puppies are very well-balanced. These puppies are content to explore and play on their own, but prefer to be with and around people. The puppies in this litter have potential for therapy work. These puppies are well-balanced, but we do best in a home that is going to be interactive with them

Health notes:

Orange has no health notes.
