#### Individual Notes:

The Raylee litter overall is confident and self-assured. These puppies show little to no stress in new situations, around new people, or in circumstances that are typically considered stressful. They are curious and investigated with new sites and sounds, including those that should be considered startling. Overall these puppies have good memory, focus, and problem-solving abilities above average for their age and stage of development. They are already showing an inclination towards an understanding of potty training. They are socially appropriate in their interactions with one another, with cats and, with other dogs. They are also socially appropriate in their interactions with people. Blue Dot has very good motivations for interaction and food. He also has good interest in toys. Blue Dot is rarely vocal. Blue Dot is very playful, happy, social, and curious. He has mid-level energy

Raylee Blue Dot is a little wiggly with restraint because he would prefer to be doing his own thing. The Raylee puppies overall have no red flags, and show no possessiveness. Blue Dot is a little more independent than some of the other puppies in the litter. He is still personable and engaging. Blue Dot is a better fit than some of his littermates in a home that needs to leave their puppy alone. He will do best in the home that might need to leave their puppy some.

#### Health notes:

Blue Dot has undescended testicles
