Individual Notes:

Genevieve Green is a little timid to start, but he does adjust very well on his own. The Genevieve puppies overall are curious and investigative with new sites and sounds, including those that should be considered startling. These puppies have a very good memory, focus, and problem-solving abilities for their age and stage of development. They also have excellent motivations for interaction, and good motivation for food. They have good interest in toys. These puppies are socially appropriate in their interactions with one another, with cats, and with other dogs. They are also socially appropriate in their interactions with people. Green does use his mouth to initiate or engage in play, but he has very good bite inhibition. He is rarely vocal. Green has no red flags and show no possessiveness. He is comfortable and tolerant of handling and restraint. Green had Mid level energy, and he is naturally gentle and respectful.

All of the Genevieve puppies have good potential for Therapy work. These puppies are all very sweet and engaging. They are eager, curious and playful. They are all personable and affectionate. Green will do best in a home that is not going to overwhelm him and will allow him to adjust to new things.

Health Notes:

Green has no health notes.
