### **7 Wk:**

#### **Individual Notes:**

Kassandra Green can be a little timid to start, but he does adjust very well and on his own. He is naturally very gentle and respectful. Although Green needs a little time to adjust to new things, he is curious and investigative with new sites and sounds, including those that should be considered startling.

Over all these puppies have very good memory, focus, and problem-solving abilities above average for their age and stage of development. They also have good motivations for interaction and food, and good interest in toys. These puppies are socially appropriate in their interactions with one another with cats and with other dogs. Green is socially appropriate in his interactions with people, he does use his mouth somewhat to initiate or engage in play, but he has excellent bite inhibition. Green is rarely vocal. He has no red flags and shows no possessiveness. Green has Mid level energy.

The litter overall is curious, playful, social and happy. They are personable and engaging. Green will do best in a home that will allow him to adjust without being overwhelmed.

#### **Health notes:**

Green has no health notes.
