7 Wk: Individual Notes:

The Leilani litter overall is very confident and self-assured. They show no stress in new situations, around new people, or in circumstances typically considered stressful. These puppies react appropriately to new sites and sounds including those that should be considered startling. They are curious and investigate. These puppies really would like to check out pretty much everything. These puppies have excellent focus and problem-solving abilities for their age and stage of development. Their memory is average for their age and stage of development. These puppies are socially appropriate in their interactions with one another, with cats, and with other dogs. They have very good motivations for interaction, food, and toys at fairly equal and balance levels. These puppies are socially appropriate in their interactions with people. They are rarely vocal. Green Red and Pink are vocal during play, but it is socially appropriate and easily managed or redirected. These puppies do use their mouth to initiate and engage in play, particularly Green, Orange and Red. They have excellent bite inhibition. These puppies are all comfortable and tolerant of handling and restraint. They have no red flags and show no possessiveness. The litter has moderate energy. They are very consistent with very subtle differences. This litter is very well-balanced. They are content to explore and play on their own while still being very personable and engaging. They are curious bubbly, social and happy. They are eager, engaging, personable, and affectionate. These puppies are very well balanced and should adapt well into any home

Health notes:

Blue has undescended testicles
