

Lilo Green: Temperament Assessment

D.O.B: 8.3.23

Weight: 2.80

7 WK Individual Notes:

Lilo Green is a little timid to start in new situations. He adjust very well and on her own, if allowed. He shows no stress around new people or in circumstances typically considered stressful. He is curious and investigated for new sites and sounds, including those that should be considered startling. He has good memory, focus and problem-solving abilities average to his age and stage of development. He has good motivations for interaction, food and toys at fairly equal and balance levels. He is socially appropriate in their interactions with other puppies, cats and with people. He is very personable and engaging. He is eager and affectionate. He is rarely vocal and rarely uses her mouth to initiate or engage in play but has excellent bite inhibition if He does. He is content to explore and play on her own, but prefers to be with his and around people. Green has mid level energy.

Green has no red flags and no possessiveness. He is well balanced. He is a little immature for his age, but it does not affect the results of this temperament assessment He is personable and engaging. He is gentle with handling an interaction. He will do well in most any home.

Health notes:

Green has no health notes
