7 Wk: Individual Notes:

The Mila litter overall is confident and self-assured. They show little to no stress in new situations, around new people, or in circumstances typically considered stressful. These puppies are curious and investigative with new sites and sounds, including those that should be considered startling. These puppies have good memory and focus average to their age and stage of development. These puppies have excellent problem-solving abilities. They also have good motivations for interaction, food, and toys at fairly equal and balanced levels. They are appropriate in their interactions with cats and dogs. They are also socially appropriate in their interactions with people. They do use their mouth quite a lot to initiate or engage in play, but they have very good bite inhibition. These puppies are rarely vocal except Blue Dot who is vocal in socially appropriate situations. It is easily managed and redirected. These puppies are all comfortable and tolerant of handling and restraint. They have no red flags and show no possessiveness. They all have moderate energy. They are all fairly consistent with very subtle differences between. When comparing the puppies side-by-side Orange is the most reserved and needs a little more time to adjust into new situation than his littermates. Blue uses his mouth the most. The entire litter is confident and self-assured. They are all content to explore and play on their own. They are personable and engaging. They are eager and affectionate. They are playful, happy, and curious. These puppies are very well balanced, and should adapt well into most any home.
