## 7 Wk:

### Individual Notes:

The Kindle and Ballerini litters were weaned together. These three girls are very confident and self-assured. They show no stress in new situations, around new people, or in circumstances typically considered stressful. They are curious and investigative with new sites and sounds including those that should be considered startling. These puppies have good memory and problem-solving abilities for their age and stage development. They have good interest in and food and excellent motivation for interaction. These puppies rarely use their mouth to initiate or engage and have excellent bite and if they do. They are also rarely vocal. They are all comfortable and tolerant of handling and restraint. They have no red flags and show no possessiveness. They have mid to moderate energy and have very good self-control. These

puppies are well balanced and consistent. Red needs a little more time to adjust into new situations than Ballerini Pink or Kendall Pink, but she does adjust very well and on her own. These puppies are bubbly, happy, curious, and playful. They balance being content to explore and play on their own, while still being very personable and affectionate. They are eager and engaging. These puppies should adapt well into any home.
