### **7 Wk:**

#### **Individual Notes:**

Raelynn Pink is confident and self-assured. She shows little to no stress in new situations, around new people, or in circumstances that are typically considered stressful. She reacts appropriately to new sights and sounds. She has average memory, focus and problem-solving abilities for her age and stage of development. She also has very good motivations for interaction, food, and toys at fairly equal and balanced levels. Pink does use her mouth to initiate and engage in play, but has very good bite inhibition. Pink is rarely vocal. Pink has mid to moderate level energy. Overall, this litter shows no red flags or possessiveness. They can be a little wiggly with handling, but it's due to excitement. The entire litter is content to explore and play on their own, but prefer to be with or around people. They are all personable, playful, eager and engaging. These puppies are well balanced and should do well in most any home.

#### **Health notes:**

Pink has no health notes.
