Individual Notes:

The Vanessa litter overall is confident and self-assured. They show no stress in new situations, around new people, or in circumstances typically considered stressful, except for Pink Dot. She does need a little time to adjust into new situations, but does so very quickly and on her own. These puppies are curious and investigative with new sites and sounds, including those should be considered startling. These puppies have good motivation for interaction, food, and toys at fairly equal and balanced levels. They have good memory, focus, and problem-solving abilities to their age and stage of development. These puppies overall are socially appropriate in their interactions with one another, with cats, and with other dogs. They are rarely vocal and rarely use their mouth to initiate or engage in play and have excellent bite inhibition, if they do. These puppies are gentle with handling and interaction. They are all very comfortable and tolerant of restraint. Red, Pink, and White need a little time to adjust and adapt to new things. These puppies have no red flags and show no possessiveness overall. They have mid-level energy. Side-by-side is more independent than the rest of the litter. Red, Orange, and Pink, are the most engaging. Overall, these puppies are playful, curious, social, and happy. They are eager and engaging. They are personable and affectionate. They are very well balanced and should adapt well into most any home.
