Zayda Girls Litter Overview:

The Zayda girls are social, well-balanced puppies with middle-of-the-road temperaments. They love attention from people and respond well to prompts, showing excellent focus. Their eagerness to please makes them great candidates for positive reinforcement training, and they will reach their full potential with guidance. Both girls are friendly and adaptable, expected to transition easily into their new homes. No health concerns were noted.

Zayda Pink

- **Energy Level:** Mid Moderate
- **Personality:** Pink came in happy and ready to engage with the tester. She pays close attention to cues and has great focus, which will serve her well in training. Pink enjoys exploring and playing independently for short bursts but always checks back in for affection and one-on-one attention. She's more motivated by human interaction than toys and can be a little mouthy during play, but she easily redirects. Pink is social and loves being with people but also has the ability to self-soothe and be independent. She will transition smoothly into her new home. No red flags were noted.

Zayda White

- **Energy Level:** Mid Moderate
- **Personality:** White came in confident and ready to play, proudly prancing around with a toy she found. She's content entertaining herself but likes staying close to people while doing so. White is a great balance of independence and engagement, showing a social yet self-assured nature. She's patient with handling but becomes more snuggly once she's had her playtime and energy burn. White's adaptability and confidence ensure she will transition easily into her new home. No red flags were noted.

Health Notes:

- None
